

Global assignment — LEGACY

rows n1, n2 both score
highest
against the same prior unit u1

maximum-weight matching
awards u1 to exactly one row

the losing row is assigned
nothing

classification: **NEW**
logical_id = fresh seed

Same window, decomposed

window split into components

the losing row is now alone
and **wins** u1 locally

score lands in the review
band

classification: **AMBIGUOUS**
logical_id = **None**

same input,
different history

next revision has no id to
continue
lineage fork, permanent
